NEW YORK.

Feb. 24th 1896

Sir William Dawson

Dear Sir

Another edition of
two hundred and fifty of "The Geological
History of Plants" was printed in
Nov. 1895, bringing the stock on hand
up to something like two hundred
and seventy five copies.

The Publishers would rather defer
making the suggested changes in
the plates of the work until most
of these are sold. If the demand
will then warrant it they will
be glad to make the needed
corrections if they are not too

ARLINGTON POPULAR SCIENCE MONTHLY

expensive

A set of sheets will be
mailed to you as soon as it
comes in from the printer—
probably to-morrow or next day.

Very truly yours

W. J. Goeman
