Dear Mr Greenfield,

I beg to enclose
a copy of the Resolution
of June 27th, to which
I referred yesterday,
^{which please refer}

I may explain that
on June 5th
the Board passed
a resolution, offering
to make any ar-
rangements that
might be agreeable
to Dr M. but in

Justice that he should
abstain from agitation
against the regulations.
He replied demanding

a withdrawal of
any ^{in a manner to impede members of the Army}
accusation ^{and he feels that action should be taken for acquiescence}

Reply the Government joined
the resolution enclined,

111 Mackay Street, 23^d April, 1889.

My dear Sir William,

I do not intend to raise any discussion in regard to the correspondence which passed between the Board of Governors and myself last year, but rather to make a suggestion which will, I believe, prevent the revival of such a discussion. My last letter to the Board was written on the distinct understanding, that it was "the intention of the Board to act towards me as one who is not even accused of having violated any Statute or Regulation of the University;" and the Board, in accepting my letter, agreed to this understanding. Now, the actions of the Board are its transactions, as recorded in its minutes; and the understanding agreed to is not carried out, as long as the records of the Board contain a minute, like that of June 5th, associating my name with offences, of which the Board knows me to be as guiltless as any man who has ever been connected with the university. That minute, which led to all the subsequent correspondence, might of

course be counteracted by a resolution recording the whole facts of the case; but as the terms of such a resolution might give rise to undesirable discussion, the ends of justice would be most effectively secured if the whole subject were buried at once by expunging the entire record of the case, that is, the minutes of June 5th, June 27th, Sept. 27th, and Nov. 6th. This course is one that is far from being unfamiliar in the history of Boards that keep minutes of their transactions. It is an obvious principle of justice regulating all such minutes, that they shall admit no record that could possibly be interpreted as reflecting on the character of an innocent man. The deletion of the minutes, to which I have referred, could not possibly injure any one. Their retention can do no conceivable good to any human being; their only effect is to fix a stigma on my memory, as long as the university

endures, by connecting my name with
offences which there is no more reason
to associate with me than with any
other man. You are in a position to
assure the Board that, if it wishes to
go out of its way to take notice of my
work in the university, it can make
no truthful record of that work without
recognising the loyalty which I have
shown to the university by suppressing
so completely my individual opinions,
and cooperating so heartily with my
colleagues in carrying out all academ-
ical regulations. The proposal, therefore,
to expunge the record in question would
come most appropriately from you; and
coming from you, it would of course
be at once adopted by the Board.

It will be very gratifying to
know that you are prepared to make
this proposal at the meeting of the
Board on Saturday.

Very truly yours,

Clark Murray

My dear Sir William,

I have not answered
your letters of the 24th and
27th of April last, because
I continued to hope that
you would still see it to be
your duty to make the very
slight reparation I had
asked for the wrong done
me by your action last
year. But as you have done
nothing to repair that wrong,
I must now draw your
attention to your letters.

You waive my request
to repair the wrong by telling
me that you are "not conscious
of any wrong done" to me.
You cannot of course mean

that no wrong was done to me
in reality; for I cannot
suppose you to hold that no
wrong is done to an innocent
man by taking up an evil
report against him, by
circulating it officially, and
by doing nothing to contra-
dict it or to counteract
its effects after it has been
proved to be without
foundation. I must infer
that your meaning is ex-
plained by the further
statement, that your action
"was prompted solely by
concern for the interests of
the university, but was
intended to guard my
interests as well." And
I presume it is in the
same spirit you assure

me that "the Governors were
actuated by the most just
and friendly disposition."
You must surely see that
these remarks carry the
controversy into a sphere,
in which you cannot be
followed. I do not ques-
tion, for I make no
pretence to know, your
conscious intentions or
the conscious dispositions
of the Board Governors. The
wrong done to me is
wholly independent of
your consciousness; it
consists in your actions
and the transactions of
the Board.

But now that you
have assured me of
your intentions and the

dispositions of the Board, there should be no difficulty in coming to a satisfactory settlement of the whole matter. As it is your intention to guard my interests as well as those of the university, you will of course have no hesitation in taking effective measures to make known the truth, the whole truth, and nothing but the truth in reference to the report which has led to all this unpleasantness.

As you wrote to me an official letter summoning me to answer that report, and as my answer silenced it completely,

I may surely call upon
you now to guard my
interests by writing to me
another ~~letter~~ official
letter stating frankly that
you had discovered the
report to be without any
foundation in fact. I
shall leave you to add
any expressions of regret,
which justice may seem
to require, for having given
official sanction to such
a report.

As you laid this
report officially before the
Board of Governors, and
induced them to take
official action upon it,
I may surely call upon
you also to take the first
opportunity of officially

withdrawing the report from the consideration of the Board, and insisting that the Board shall record that the fact that it was officially withdrawn because it had proved to be without any foundation in fact.

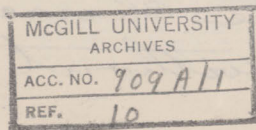

The minutes, which the Board has entered in reference to this matter, evidently ignore the fact that I had completely vindicated myself against the injurious report which I was summoned to answer. I am perfectly willing that you or the Board should bring any complaint against me, which you are prepared

to substantiate by legal evidence; but when I challenge not only the fullest inquiry into the allegations of your report, but the most searching scrutiny of my whole academical life, it is surely a most incomprehensible course for you and the Board to ignore my challenge altogether, and to adopt a resolution warning me not to perpetrate offences, of which you know me to be as innocent as any of yourselves. I cannot conceive that either you or the Board claim the right to record injurious reflections on the character of a professor without

making any complaint
against him or giving
him any opportunity of
defence; and if you will
not agree to the generous
settlement, which I pro-
posed, of quashing the
whole record, it is surely
not impossible by friendly
conference to hit upon
some other course which
would be equally honou-
rable to the Board and
just to me.

Yours very truly,

J. Clark Murray

My dear Sir William,

In acknowledging your letter of the 31st ult. I cannot but express surprise that you do not answer directly and frankly the plain requests which I made. It is surely not difficult to say plainly whether you are willing to officially withdraw and officially contradict a false report which you had the sole responsibility of officially laying before the Board of Governors. You tell me that the subject has been removed from your jurisdiction, and placed in the hands of the

Board, by myself. What You
can mean, I am wholly
unable to comprehend; for
there is nothing more patent
than the fact, that I am
the very last man who can be
charged with bringing such
a report before the Governors,
while You are alone responsible
for giving currency to the report,
and inducing the Board to
take action upon it.

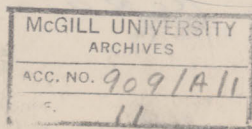

But whatever may be
Your meaning, it was not the
action of the Governors, it
was Your own action, to
which the requests of my
letter referred. I asked
You simply to tell the truth,
or — what is the same
thing — to contradict a
false report to which You

had given your official sanction. Surely you do not mean that the question, as to whether you should tell the truth, can ever be removed from your jurisdiction, or left in the hands of any other person. It is you, and you alone, who can decide what your own action in the matter is to be. What the action of the Board may be after you have contradicted and withdrawn your report, of course I cannot say; but you will at least be freed from further responsibility when you have done all that you can do personally to repair

the mischief caused by
that report. Whenever you
agree to contradict and
withdraw the report, I
shall be most happy to
confer with you in reference
to further action; and I
feel confident that, when
the report is withdrawn,
there will be no difficulty
in inducing the Governor
to agree to a settlement
that will be satisfactory
to all parties.

Yours very truly,

Matters
of Murray
Montgomery
Indepndence

The following copies of minutes have been prepared by order of the Board of Governors, and are circulated Confidentially to Members of the Board, with reference to an application now before the Board.

5th May 1888

"The Principal submitted a letter which he had addressed to the Rev. H^r Murray, with reference to alleged action on the part of the latter in disparaging in the presence of Students the system of education of the Donaldda Special Course and the Regulations of the University, and asking for explanation as to the same; and stated that no reply had yet been received. He was instructed to ask for an early reply and to state to H^r Murray the necessity for cordial co-operation on the part of all connected with the University in the work of womens education, and that it was expected that his answer would be final and satisfactory."

12th May 1888

Correspondence was read between the Principal and Rev. H^r Murray, and it was resolved,

"That H^r Murray be asked to meet with Mr J. H. R. Molson and Mr George Haque, as a Committee of the Board, and that they be authorized to impress on him the obligations of the University in the matter of separate education of Women and the necessity of cordial co-operation in carrying out the same, and absence of agitation of questions already decided by the University except in the University bodies to which such questions belong.

The Committee to report to the Board at its next meeting.

Carried unanimously.

26th May 1888

Mr Haque, on behalf of the Committee of the Board appointed at last meeting to interview Rev H^d J. Clark Murray with reference to correspondence between himself and the Principal, submitted their report, and also a letter subsequently received from Rev. H^d J. Clark Murray.

Resolved

"That the report be received and filed away for future reference, and H^d J. Murray's letter be referred to the same Committee for their further report at a Special Meeting to be called on Friday the 1st June at 4³⁰ P. M."

5th June 1888

Mr Haque on behalf of Mr J. H. R. Molson and himself presented a report of their interview with Rev. H^d J. Clark Murray, and also a report on a letter subsequently received from him and further reported the following resolutions to be communicated to H^d J. Murray on behalf of the Board.

"On consideration of the letters of the Rev. H^d J. Clark Murray to this Board and of the report of Messrs J. H. R. Molson and George Haque, members of the Board, on their interview with him and on his subsequent letter of May 22nd, and referring to the obligations entered into by the University with respect to the endowment of Sir Donald A. Smith for the separate education of Women, and to the Regulations of the Corporation based thereon and to the requirements of the Statutes of the University, as well as on consideration of the fact that the work carried on under the present regulations is intended ultimately to assume the form of a distinct College for Women."

It was

It was resolved

1st That the Board of Governors must hold all officers of the College and University as strictly bound to make every exertion for the due observance of the above mentioned obligations and regulations, so long as they shall remain in force and shall not be repealed or amended in the regular methods prescribed by the Statutes of the University. That it is consequently the duty of all such Officers, to sustain the Principal in the administration of the said regulations, and to encourage all members of the University in their due observance, and above all to abstain from all complaints in the public prints respecting said regulations and their operation, and not only from all agitations against them before Students, but from all expressions likely to induce the Students to be disaffected to the Regulations, or to lead them to believe that any Officer of the University sympathises with such disaffection on their part.

2nd That the Board trusts that notwithstanding certain expressions in H^{on} Murray's letters, he will feel it to be his duty, cordially to acquiesce in the spirit and intent of the above resolution, and to carry it out in practice in such a manner as may be satisfactory to the Board.

3rd That at the same time, and with due regard to the principles above stated, if H^{on} Murray continues to believe the said regulations of the University, in their operation to be unjust or burdensome to himself personally, the Board is willing, in consideration of his long services, and on his application, to relieve him from all those duties in relation to the separate education of Women voluntarily assumed by him on request of the Board; he relinquishing at the same time

time the assistance and remuneration attached to said duties and undertaking to co-operate cordially under the regulations in force, with such officer or officers as it may be necessary to appoint to discharge such duties in due fulfillment of the obligations of the University to provide separate education for women in all respects equal to that for men.

4th That the above resolutions be communicated to Rev. A. G. Murray with the intimation to him that it will be a source of much gratification to the Board if he can cordially concur in the spirit and intent of the first resolution and will intimate the same to the Board on or before its meeting on June 23rd next ensuing.

Unanimously adopted

27th June. 1888

The Acting Secretary read a letter from Rev. A. G. Clark Murray acknowledging receipt of the communication of the Board, dated 7th June, and declining to make any reply to the minute of June 5th, and asking for an official minute formally acquitting him of the charge alleged to have been brought before the Board against his professional character.

Resolved

"That in reply to Rev. A. G. Murray's letter of June 21st the Secretary be instructed to call his attention to the fact that the records before this Board do not contain any accusation of "subverting discipline and morals" as has already been fully explained to A. G. Murray by a Committee of the Board, and that it is not desired now to formulate any charge to that effect; the inquiry originally made by the Principal having had reference to reports which had reached him to the effect that an address had been delivered

delivered by Mr Murray "tending to influence the minds of students against the Regulations of the University for their separate education in accordance with the obligations entered into with the founder of the "Donalda Course for Women" though questions arose in subsequent discussions as to statements in the public press and other matters.

Further, that, while desirous to avoid all reference to the past, the Resolutions of the Board of date June 5th indicate the deliberate and unanimous decisions of the Board as to duties incumbent on Mr Murray in his relation to the University as one of its Professors; and that however the Board may regret any dissatisfaction on the part of Mr Murray it cannot in the interest of the University, and in view of the contracts entered into recede from the requirements indicated in those resolutions."

27th Sept 1889

Rev. Mr J Clark Murray's letter of Sept. 21st having been again read.

On consideration of the resolutions of June 5th and June 27th 1888, and of Rev. Mr Murray's letter of September, and the previous correspondence which had taken place in regard to the matters to which they refer.

It was unanimously resolved.

That the Board very deeply regrets that, notwithstanding the explanations made to Mr Murray both in the above resolutions and by the committee of this Board, he should express himself in the tone of his letter of September 21st; and that while withholding any expression of willingness to comply with the reasonable wishes of the Board in the future, he should go so far as to threaten to "ask" vindication before another tribunal", and this
when

when the Board cannot admit that he has any just ground of complaint.

In these circumstances the only course open to the Board, in consistency with the interests of the University and with carrying out its regulations and the obligations into which it has entered is to submit to Mr Murray the alternative either to withdraw the said letter and to consent to conform to the views of the Governors as expressed in their resolutions of date the 5th June and 27th June last or to place his resignation in the hands of the Board.

The Board further desires to intimate Mr Murray that, while bound to maintain the regulations and engagements of the University, in the matter of the separate education of women, it is now as heretofore desirous to treat Mr Murray with all respect and consideration; and that it will be with the utmost reluctance that the Board will take steps towards his amotion from his Professorship."

Carried

27th Oct. 89

It was resolved

"That the Acting Secretary be authorized to acknowledge receipt of Mr Murray's letter of date 26th Oct and to state that it is under consideration of the Board.

That the Acting President and the Hon^{ble} Judge Church be a committee to prepare a reply to the same to be submitted at an adjourned meeting to be called by the Acting President"

6th Nov. 1888

It was resolved

The following copies of minutes have been prepared by order of the Board of Governors, and are circulated Confidentially to Members of the Board, with reference to an application now before the Board.

5th May 1888

The Principal submitted a letter which he had addressed to the Rev. H^r Murray with reference to alleged action on the part of the latter in disparaging in the presence of Students the system of education of the Donaldson Special Course and the Regulations of the University, and asking for explanation as to the same; and stated that no reply had yet been received. He was instructed to ask for an early reply and to state to H^r Murray the necessity for cordial co-operation on the part of all connected with the University in the work of women's education, and that it was expected that his answer would be final and satisfactory.

12th May 1888

Correspondence was read between the Principal and Rev. H^r Murray, and it was resolved,

"That H^r Murray be asked to meet with Mr J. H. R. Molson and Mr George Hague as a Committee of the Board, and that they be authorized to impress on him the obligations of the University in the matter of separate education of Women and the necessity of cordial co-operation in carrying out the same, and absence of agitation of questions already decided by the University except in the University bodies to which such questions belong.

The Committee to report to the Board at its next meeting.

Carried unanimously.

It was resolved

1st That the Board of Governors must hold all officers of the College and University as strictly bound to make every exertion for the due observance of the above mentioned obligations and regulations, so long as they shall remain in force and shall not be repealed or amended in the regular methods prescribed by the Statutes of the University. That it is consequently the duty of all such Officers, to sustain the Principal in the administration of the said regulations, and to encourage all members of the University in their due observance, and above all to abstain from all complaints in the public prints respecting said regulations and their operation, and not only from all agitations against them before Students, but from all expressions likely to induce the Students to be disaffected to the Regulations, or to lead them to believe that any Officer of the University sympathises with such disaffection on their part.

2nd That the Board trusts that notwithstanding certain expressions in H^{on} Murray's letters, he will feel it to be his duty, cordially to acquiesce in the spirit and intent of the above resolution, and to carry it out in practice in such a manner as may be satisfactory to the Board.

3rd That at the same time, and with due regard to the principles above stated, if H^{on} Murray continues to believe the said regulations of the University, in their operation to be unjust or burdensome to himself personally, the Board is willing, in consideration of his long services, and on his application, to relieve him from all those duties in relation to the separate education of Women voluntarily assumed by him on request of the Board; he relinquishing at the same
time

time the assistance and remuneration attached to said duties and undertaking to co-operate cordially under the regulations in force, with such officer or officers as it may be necessary to appoint to discharge such duties in due fulfillment of the obligations of the University to provide separate education for women in all respects equal to that for men.

4th That the above resolutions be communicated to Rev. Dr. Murray with the intimation to him that it will be a source of much gratification to the Board if he can cordially concur in the spirit and intent of the first resolution and will intimate the same to the Board on or before its meeting on June 23rd next ensuing.

Unanimously adopted

27th June. 1888

The Acting Secretary read a letter from Rev. Dr. J. Clark Murray acknowledging receipt of the communication of the Board, dated 7th June, and declining to make any reply to the minute of June 5th, and asking for an official minute formally acquitting him of the charge alleged to have been brought before the Board against his professional character.

Resolved

"That in reply to Rev. Dr. Murray's letter of June 21st the Secretary be instructed to call his attention to the fact that the records before this Board do not contain any accusation of "subverting discipline and morals," as has already been fully explained to Dr. Murray by a Committee of the Board, and that it is not desired now to formulate any charge to that effect; the inquiry originally made by the Principal having had reference to reports which had reached him to the effect that an address had been delivered

delivered by Mr Murray "tending to influence the minds of Students against the Regulations of the University for their separate education in accordance with the obligations entered into with the founder of the "Donalda Course for Women" though questions arose in subsequent discussions as to statements in the public press and other matters.

Further, that, while desirous to avoid all reference to the past, the Resolutions of the Board of date June 5th indicate the deliberate and unanimous decisions of the Board as to duties incumbent on Mr Murray in his relation to the University as one of its Professors; and that however the Board may regret any dissatisfaction on the part of Mr Murray it cannot in the interest of the University and in view of the contracts entered into recede from the requirements indicated in those resolutions."

27th Sept. 1888

Rev. Mr J. Clark Murray's letter of Sept. 21st having been again read—

On consideration of the resolutions of June 5th and June 27th 1888, and of Rev. Mr Murray's letter of September, and the previous correspondence which had taken place in regard to the matters to which they refer.

It was unanimously resolved.

That the Board very deeply regrets that, notwithstanding the explanations made to Mr Murray both in the above resolutions and by the committee of this Board, he should express himself in the tone of his letter of September 21st; and that while withholding any expression of willingness to comply with the reasonable wishes of the Board in the future, he should go so far as to threaten to ask 'vindication before another tribunal', and this
when

when the Board cannot admit that he has any just ground of complaint.

In these circumstances the only course open to the Board, in consistency with the interests of the University and with carrying out its regulations and the obligations into which it has entered is to submit to Mr Murray the alternative either to withdraw the said letter and to consent to conform to the views of the Governors as expressed in their resolutions of date the 5th June and 27th June last or to place his resignation in the hands of the Board.

The Board further desires to intimate to Mr Murray that, while bound to maintain the regulations and engagements of the University, in the matter of the separate education of women, it is now as heretofore desirous to treat Mr Murray with all respect and consideration; and that it will be with the utmost reluctance that the Board will take steps towards his amotion from his Professorship."

27th Oct 88

It was resolved

"That the Acting Secretary be authorized to acknowledge receipt of Mr Murray's letter of date 26th Oct and to state that it is under consideration of the Board.

That the Acting President and the Hon^{ble} Judge Church be a committee to prepare a reply to the same to be submitted at an adjourned meeting to be called by the Acting President"

6th Nov. 1888

It was resolved

"That this Board accepts the explanations contained in the letter of Rev J Clark Murray of date Oct 26th, and receives with satisfaction the withdrawal of his previous letter made therein, and the assurances which he gives for the future"
