

293 University St
Montreal

October 12/96

My dear Prof West,

Your favour
of Oct 9 reaches me
to-day, and is the
first intimation I have
had of the proposition
proposed to be done here by
your museum. I found
waiting my return from
England last week a
card of invitation to be
the guest of Prof Shields
during the celebration, and

49/51
I should have replied before
this time but for the
multitude of calls on
my time since my return
I do so by this mail
regretting however that
it will be quite im-
possible for me to come
home again this autumn

Thank I can assure
you very pleasant re-
membrances of the Ruckhup
and especially extended
to me in Brunster in
true part, and shall

to offer my cordial good
wishes on this auspicious
occasion.

Yours sincerely
J. M. Dawson
