Dear Sir William

I have to thank you for your kind communications and the first portion of returned proof. The second label & illustrations may come to hand in a few hours. We will send redises as soon as possible. Thank you for wood cut in place of Coloured Map.

We are just now in the height of our busy season, but our books are "going" well. I was very pleased with your article on "The Sons of God" in "The Expositor".

Please make my kind regards to Lady Dawson. Believe me

Yours Sincerely

W. H. Hodder

P.S. Should The Revell Comp^y of
New York write to you about an
American Edⁿ of the new book.
Kindly refer them to me. I would
rather Harper should publish
if it can be arranged.

"The Beginnings of life" as a
title has been taken by Bastian
Should we not make our book
"The Earliest forms of life"?
