

Richmond, Jan. 6th 1877.

Dear Sir William Dawson:

Would
you be so kind as to give
me any information
that it is quite convenient
for you to give regarding
the presence of fossils in
the Serpentine of Mulbourn?

Dr. Adams informs
me that you have been
lately investigating that

subject and suggests
that the results would
be a very valuable aid to
my study of the Serpentine
on the Eastern side of the
St. Francis river.

- I beg to remain, Sir

Yours very truly,
John A. Gussess.
