Dear Mr. Dawson,

Your note with abstract of paper, was received a few days since. I find as I had feared, that it will not be possible for me to attend the Halifax meeting this year, much as I should like to do so. I am writing Dr. Barrinot &

that effect. We have  
been having a very  
unusual amount of  
rain and cold weather  
and all crops are in a  
very backward and  
unsatisfactory condition  
except grass, which prom-  
ises to be heavy.

I am finding good speci-  
mens here this year  
and expect to return  
with a good supply for  
the winter's work.

Please give my regards  
to Lady Dawson and  
accept the same for

Yours self
