

24 VICTORIA PLACE,  
STIRLING.

Kidston  
to Stampy  

7 July 1897

Dear Sir William:

I am not able yet to write to you on the fossils you so kindly sent for examination as I am waiting till I get the Sepilaria showing structure seen: Unioned & my man - (the only one I can trust with such work) - is too busy for a few days yet to do it.

The cause of my writing is a notice I have seen that the Canadian Government have brought out a jubilee issue of Postal stamps which I believe may only be in use for a limited time. Might I ask you, if not of too much trouble to send me a set - I do not know the values issued, but

would like one of each value  
up to the 50 cent stamp, if they  
have one as high priced - I  
cannot remit you the money,  
~~because~~ as I do not know what  
is issued but on hearing from  
you will do so -

If there are any Jubilee  
Postcards, or Wrappers or Envel-  
:opes with impressed stamps on  
them, I would also like one of  
each - If this matter will be  
any trouble to you, please do  
not ~~worry~~ "bother" about it.

I sincerely hope you are feeling  
stronger now -

As soon as I get the Septarian  
sectioned, I shall write again -

My sisters write in kind  
regards -

Yours

R. Dickson
