

Antigonische
Sep. 18th 194.

My dear Sir William,

We read with great-
pleasure your sketch
sketch of my father as
you drew him) in the
Feb Record - we found
the drawing of the P.E.S
sarcoph. domes, the figures
in which have now
a special interest for
us. It has been a
three repeated dis-
-appointment that
I have missed meeting

you either in Halifax
or Montreal. My youngest
daughter Lucy is waiting
for a few weeks at McDonalds
219 Metcalfe Ave. Westmount
Montreal. and I should
like her to see you. if
you could arrange a
convenient time for
her doing so.

Three years ago I was
asked by our old friend
Dr. Currie of Pointe St. Louis
to write "something"
about the New Hebrides"
for a "Southern Res. Magazine"

I had no time to think the
matter over, as my daughter
sent pencil & paper before
me and bade me write
as I had told them of
my early memories.

After the first letter
Mr. Hamber asked for
illustrations - This required
my daughters & I complied
with pen sketches, original
or copied. An invalid
in the house & troubles
of various kinds obliged
me to discontinue
writing. It has since
been suggested to me

that as these letters were
acceptable to strangers,
why should I not continue
them, so as to form an
illustrated book for
the young of our own
Church. I have sent
the only copies in
my possession by
Lacey, asking your
opinion. My experiences
have been mixed.
Do you think they
could be made

Insufficiently interesting,
to warrant my undertaking
the work? The engraving
of Pictou is from ~~an~~ letter
head found in the old
house in Pictou.

Trusting I am not asking
too much of one whose
time is so valuable.

Remain dear Sir, Yr. Obedt. Servant,

Respectfully & sincerely

Yours, with kind regards

Charlotte Geddie Harrington.
