

P.S. The late Mr. James Geddes was "started" by me, on the same line -
when only 7 years of age - and, just before he died, sent me a
beautiful Case

My dear Sir,

At the end of last Term, I
promised 4 "gold medals" for the best
collections of Lepidoptera - Wild Flowers -
Ferns and - Buds. One small Boy
of 9, has by him a wonderful case
of Butterflies - beautifully arranged.
Now he wants to know the "Latin Names".
I know the English type - but some are
stray to me. Is there any Book or
Canadian Butterflies with Illustrations
or descriptions? I should be obliged if
you could inform me.

Yours truly
E.W.

Believe me
Yours respectfully
Edmund Wood
