

Impall

Business Office  
Saturday

my dear Dr Dawson

as the confidence  
of the Corporation meeting  
has been betrayed to the  
Herald through not I  
presume by any member  
of the Corporation but by  
some intervening busy-  
body, it appears wise  
to give the results of  
the action of the  
corporation in corrected  
form. The conclusions

on the main questions are  
reached although the  
matter is not formally  
closed and I am sure  
the oftener college  
matters come, not un-  
favorably, before the  
public the greater  
will be the public's  
interest. It might  
be wise to furnish  
the press with results  
as in the case of

the School Board  
Yours respectfully  
W R Boyall  
Perhaps you would like  
to furnish an article  
on the change
