My dear Professor

A friend of mine
who has taken a degree of B. D
from the University of Racine, and
was originally at Cambridge with
me, wishes to take out his
Doctor of Divinity -

But he would rather, if possible,
do this under an English Charter.

To reside again at his
old University is out of the question;
so the only solution remaining is
to take out either the D. D. or
the L. D. of some Canadian
University.

Now we fancy that the McGill
Univ^r of Montreal grants these
degrees without residence to men
who prove themselves worthy.

And under the supposition
that you are either personally acquainted
(or know people who are) with Rev^d
Principal Dawson, I wish to
enlist your services in the cause.

I myself am very anxious that
the matter should meet with
no hitch - And I should
deem it a personal favour
if you could assist us, or
put us in the way
