London June 19<sup>th</sup>  
1878

Dear Papa.

I send you Lampson  
sows receipt which came down  
at first, though some mistake  
unmistakable.

I have just remembered that  
I have forgotten to send the Entons  
to Brady. As I hardly know what  
to say to him. Perhaps if not  
too much trouble you would  
drop him a note, & a line to  
me at the same time, on receiving  
which I would send the Entons  
& he would get them next  
day. I am sorry that I forgot.

to send them before this.

Will Sunderland, alone be  
enough address? I will try  
to find a half day before I leave  
to finish the forms. I suppose  
I had better bring them to you in  
Scotland when I do.

I have got a copy of the Medical  
act which you wanted will  
I send it down, or bring it when I  
come? I have also got Dalry's  
Nat Hist which seems to be a  
very good book for the purpose.  
Nichols Mineralogy is the book  
used at the R.S.M. but I fear it  
is out of print. I will enquire  
however & try to get a copy.

Believe me your affectionate son  
George Henderson.
