

Monday, Feb. 21, 1876.

My dear Father,

I mailed today the pamphlets which Mr. Renault sent me, & I also enclose a letter from him (omitting the envelope). There are two of his which he published some time ago which I spoke of in my letter, and his last. I have done these up together as they are all the same size. The other is M. B — 's, describing the seeds I spoke of. I put a piece of pasteboard in this to keep it from bending as I did not like to fold it on account of the plates it contains. I hope they will all arrive safely.

Yours affectionately

William.
