

G. M. D.
Eu-chem-ica Lakes
Blackwater R.
June 9. 1876.

Dear Father,

I have just got back
from the flying expedition
I spoke of going on when I
wrote from Duessel. The weather
was wet & unpleasant, &
not much of geological interest
turned up. I am quite well
but the tents are being pulled
down for another week & I
cannot write more by this
chance, but take the opportunity
to let you know where I
am. In about seven days

I hope to meet Mr
Cumber on the Salmon R.

With love to all
Yours affectionately
George.
