The weather is Friday  
delightful, so much so  
indeed that you take no  
notice of it whatever. I  
saw Dr. Hunt & sisters  
this morning. On my  
He asked if you were  
here. On my answering  
him, he said he was  
very sorry, as you were  
missing something, which  
you might see again.  
The arrangements in this  
~~as well as all~~, the build-  
ing are ~~most~~ completely  
& elegant. At first I  
thought I mt. get tired of  
the exhibition, but the  
longer I remain the  
more attractive it becomes.  
The Russian display which  
I examined yesterday is  
grand.
