This is another 25<sup>ct.</sup>

day & there is a great crowd of people in the grounds. I have devoted this morning to the Agricultural Hall, where there is a very large, but not very interesting display. As this will be my last day, (I hope to leave for home tomorrow afternoon) I intend to take a general walk round this afternoon, & see some of the things I have before missed. I may be home Monday evening, but can not say certainly, very likely not till Tuesday morning or perhaps evening.
