Sept 8th

My dear Father,
D. Gden &
myself have got this
far on our western
trip. We had intended
merely to make it
a run into Walsh
but shall now
I think extend it
further west as I
am anxious while

here to see something
of the cattle country
The weather &
scenery has been
very enjoyable &
the trip generally
all that could be
desired. There are
already men on
the Tashat. at the
crossing employed
in getting out
bridge timber.

Your affec - son
Franklin.
