My dear Uncle Dawson

I ought to have sent
an acknowledgement of the
book you so kindly sent
me but I wanted to peruse
the same before doing so
I am very much pleased
with it, and there is so
much in it to elevate the
mind, that I can read it
over and over again with
much profit because it
carrys the mind from the

natural to the spiritual

I had a letter from
Dear Father last week and
he was confined to the house
for the last two weeks of
the old year with a bronchial
cold and inflammation of the
eyes, but was able to be out
again for half an hour on
the 3^d of Jan^y

With very kind regards to
Aunt and family

I remain ever

Your Affec^{te} Nephew
