GEOLOGICAL & NATURAL HISTORY SURVEY.
Alfred R. C. Selwyn L.L.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST. OTTAWA.

9 March 1883

Dear Father,

I have just received
your printed copies of the
R.S. Circular, & at the same
time got the enclosed copy of
Circular issued by Mr
Carpenter for the Veterinological
Side. He has struck off a
Supplement. number in the
form of the enclosed. I have
written saying that I believed
you had been in communication
with Mr Graham about the

distribution of the Circulars, &
 that it would probably be best to
 include one of his with each of
 the several ones. Were you to
 furnish a certain number to
 Mr G. in hoc or was they to
 be separately addressed accordingly
 to list? In the former case it
 would probably be best to have
 Mr Carpenter's Circulars sent
 to Montreal, either to you or Dr Hunt,
 in the latter, you had probably best
 send the Circulars up here with
 list, & we can attend to getting
 them addressed without any trouble.
 If you let me know what is
 proposed I will write again to
 Mr Carpenter & tell him
 your affectionate son
 F. H. C.
