Dear Foster,

In receipt of your
telegram of Saturday evg. I telegraphed
to Potter Radolf, as I suppose
he must have written to you
expressing. I had, however, already
written to him, & shall I
suppose see him in Montreal
before I start, which will be from
7th to 10th of May I think.
Mr. Cornell leaves next Friday
evg. on a day when he has very
few days work to do before
I wish I could visit him.
Have arranged to take

Lywell as a rest. I will
 probably spend a day or two
 at Mankat before leaving.
 An. was much
 pleased with what he saw
 of plants.
