

Sage

5 May 83

Dear Father,

I partly intended

going down to Westport today,

but will have yet heard of

Robert Rudolfs arrival, postponed.

I had intended leaving for the

west on the 10th, but owing to the

late arrival of a shipment of

some photo. plates from England

my probable have to put off

to the 14 or 15th. My plan

therefore is to go to Westport

Sunday next week & return

here before striking West.

Mr Fyrell who is going
with me has already got us
for us Fruits on account
the delay will have to wait to
wait there.

Dr Erant has just been in
by my & found a description of
— Greenlandia, which you
you told him you thought his seeds
were belonged to. He wants
to write a white git. Could
you let me know when to
send him & find a detailed
description of the animal in
some suitable book.

Ma'am showed us your

letters with names of collectors of the *M. fide* Coe
 Herbarium. They are so numerous that I thought
 they might best be put in as a foot-note in
 the preface, & accordingly put them in thus,
 Will this be right? Some of the names I could
 not be much sure about, eg. H. S. Japnells?
 James Mahan? Rev. M. Butler? Would
 you kindly let me know about these

Yours affectionately
 G. W. G.

George
