GEOLOGICAL & NATURAL HISTORY SURVEY.
Alfred R. C. Selwyn LL.D., F.R.S., Director.
MUSEUM & OFFICE, SUSSEX ST OTTAWA.

29 Dec 1884

Dear Father,

Enclosed herewith is

a note which must refer to
you. I also send by same
mail the maps needed to complete

your copy of Report of 1877-78.

Also the small specimens I
carried off. I find that

Mr White also has the
^{near}
Cinabris from another locality,

& there is therefore nothing new

2
to our lists in the Camps.

The name I think I gave
you wrong ^{is} that of a large

cast this shape
which should be

Cyprina ovata.

Yours
George
