

29 Decr 85-

Dear Father,

I find that Mr White has
has not any fully material
with Sitta fridens so if
you could send up by mail
in little wooden or tin box
sufficiently strong the Gayle 16 f.
material I will try to hunt one
or two out. I do not care
to trouble you searching for the
form. Respecting Garnett's
letter enclosed this time I
would say that any doctor young

to the district in question
& trying to get on there should
be a junction and fellow as
unless he got along well with
the Junction ranchers there
he would do nothing.

yours
George
