

Montreal

Jan 10th 1887

Dear Sir William,

I write to say
that some of the Fourth Year
Students came to see me
on Friday to enquire whether
I thought they could
obtain the use of the museum
for a *conversazione* which
they are anxious to hold
in lieu of their annual
dinner. I told them that
I could not say anything
about it and that it would
be necessary for them to

send in an application
 to you or to the Museum
 Committee. On Saturday I
 got the enclosed letter which
 I promised to forward to you,
 as they seemed very anxious to
 know soon whether there
 was a probability of their
 getting the museum.

The lectures began again
 on Wednesday and work
 is now well under way.

R. A. Ramsay has been
 seriously ill with pneumonia,
 but according to the last
 accounts is improving. It
 is really a very trying winter.
 The temp. for December was
 4° below the average and
 we are still having intensely
 cold weather.

I was told a day or two ago (by Mr Hague) that Mrs Lorrance is to have the use of her husband's property during her lifetime, but that on her death it goes to the college - probably sixty or seventy thousand dollars.

William got back from Toronto on Wednesday and has had a few holidays since his return. He had a pretty hard time of it in Toronto, but seems to have done remarkably well in his examination, and I have no doubt that it will be greatly to his advantage. Anna & the little ones are all well. Sincerely yours
B. F. Harrington.

July 1894

For the enclosed letter which
I promised to forward to you,
as they seem very anxious to
know how we get on with
was a great relief of their
getting the museum.

The letter upon again
on Wednesday and will
is now well under way.
R. A. Ramsey has been
removed to the
but according to the
account is improving. It
is really a very trying winter.
The trip for December was
4° below the average and
we are still being outdone
at the weather.
