My dear Foster,

Yours of 2 Feb. received & will be
thought of & attended to. - I wear the
Geological Development etc. The direction of
glaciation about Hudson Bay etc. has been
noted by Bell. References to the reports in
which the principal facts are to be found, together
with all that I have ascertained on the
question in general, are given at end of
my "Notes". Enclosed is part of a rough proof
in galley. Some slight verbal changes may have
been made in second volume, of which I
have not even a copy.

I send you express a small box of Wild Rice,
prepared for me, & enclose herewith a note
relating to it.

Yours truly
George M. Dawson
