

GEOLOGICAL & NATURAL HISTORY SURVEY,
Alfred R. C. Selwyn, C.M.G., L.L.D., F.R.S., Director.
MUSEUM AND OFFICE, SUSSEX ST., OTTAWA.

7 February 1887.

My dear Father,

I do not want the proof slip back,
but it would scarcely do to send it
away as King has made changes since
which would render quotations incorrect, &
besides my work they have in proof may not
see the light for months & Andrews might
anticipate it. I do not know anything about
Andrews, but wish you particularly wish to
oblige him would suggest that you might give
your references to Bell's reports in your
volumes 1882-84 & 1885. There gives
your allegations by him of what he has observed
in Hudson Bay, which so far as I
understand is all that is asked. However
do as you think best.
I am sorely booked for the Queen's bow &
shall I suppose have to leave sometime in April
Yours truly
George
