

26 March

My dear Letter,

William writes from
train that he would like
a copy of paper by us
on superficial geology of
B.C. I have no copies here,
but there are copies in
the cupboard in your
library, in brown covers.
Perhaps you would be
so kind as to mail him
one to North Bend B.C.

I intend to get down &
write this week
as Easter holidays are
in prospect.

Yours
Scott
