

GEOLOGICAL & NATURAL HISTORY SURVEY,
Alfred R. C. Selwyn, C.M.G., L.L.D., F.R.S., Director.
MUSEUM AND OFFICE, SUSSEX ST., OTTAWA.

Feb. 9 1889

My dear Foster,

I have another note from Mr Thomas
with which he sends some slides, including
some fine sperangites - some very fine of
his. He says he did not like to trouble
you with them, but they are good ones & we
threw in I suppose you are not now working
at these things they can wait till next I get
down.

I see in the week, the number of this week
& also that of last week were letters brought out
by Mr Hoagues reply, all arrangements of course
I think it would have been better if Mr Hoagues
had been content to let the matter die of inattention
as it was ready to do. His printing of this
has surely given a chance for the protein
individual to make a new start. Nothing
remains but to allow him to die off with
his final discharge. The week seems to be

~~S. M. D. Selwyn~~
S. M. D. Selwyn

Taking a wonderful interest in McGill,
 for there is another communication on the number
 of lady students to which Dr. Johnson
 alludes right in the middle as I believe to &
 that you was responsible for the Campion
 work.

I have a sort of informal intention that I
 can get an appointment to make the reflections
 in Brazil in connection with the release
 you remember Mr. Abbott & others are interested
 in - a matter of probably a couple of years &
 I do not intend following the thing up or
 occupy it unless you should think
 formally yet, however.

Yours very truly
 George

I am always to be very true & never to get
 anything done with certainty. Was sorry not to
 be able to get down in Council creek
