

GEOLOGICAL & NATURAL HISTORY SURVEY.
Alfred R. C. Selwyn, C.M.G., L.L.D., F.R.S., Director.
MUSEUM AND OFFICE, SUSSEX ST., OTTAWA.

23 March 1889

My dear Foster,

There is no published geol.

works including notes except Richardson's
old one, which is little use. Bailey & McInnes
have not got so far in working from the
New Brunswick direction. I believe there
are a lot of hand maps of Richardson
but not unfolded into any maps. Dr Selwyn
also says there is nothing published about it.
He has been over the ground, however, &
would doubtless be willing to give you the
benefit of any opinions he may have formed
if you like to hear them. The only maps
I can find is the admirably chart on
Scale of about 4 in to an inch. This I can
probably show, but if it is of any use I can
get a tracing of the part you wish made, without
any trouble. I am sorry that I did not get down today,
but hope to do so next week. Yours &c
Selwyn
