My dear Father,

I have a note from Prof. J. F. Stevens
of New York in which he expresses the
hope that you will contribute a paper at the
next meeting (to be held some time in December
I think) & mentioning that he wishes to know
title, length, & descriptive note of any papers
sent to him as soon as possible. So far as
I am concerned I am glad to have got to
think of such matters. Anything which may
be of general interest usually turns up
toward the close of winter's work when I have
got summer work in some stage.

Yours
George
