Alfred R. C. Schwyn, C. M. G., L. L. D., F. R. S.,

DEPUTY HEAD AND DIRECTOR,

MUSEUM AND OFFICE, SUSSEX STREET, OTTAWA.

December 16 1890

My dear Father,

I thought at one time of going to Montreal on Saturday last, but found it hard to do so, & shall consequently put mine till next week, when I shall try to sit down a day or two before Christmas & stay several days. I have received, or am in doubt how to do, a card calling for reply, from Worthington, referring to the Ent. Soc. Ann. meeting. Would it not be well for you to go & take notes with me? I would much rather attend but feel at the same time that there are reasons for attending the meeting - particularly the fact that I have been on the Council for the year. In any case I do not like to wake up my mind at the present moment. If, however, you are really desirous to see I have promised to go with you. Of course there is no need to answer the circular signed to unless it should be assumed to do so & it might be left to be discovered when I arrive in Montreal.

Yours
George
