Dearest papa & mamma,

We have a
clear sky & the thermometer
down to zero, so that the
Canadian weather has at
last asserted itself, Mrs Cox
was rejoicing in its glorious
exhibition - but I can't say
I go further than to appre-
ciate its virtues - I wd much
prefer open windows & an
outdoor life without an
elaborate dressing =

I do hope the Gazette people
have attended to sending
you the paper - It is surprising
how stupid people are I still
get papers & letters sent here
for you though I - must have

the office & spoke to the proper
officers - I sent back two bundles
of mail matter as an extra
reminder -

I think I never saw ^{more}
N. mas. hustle than this year
& beginning so long before
hand. Everyone seems to be
doing a grand business, &
I have several times been
told that all this, or all
that had been sold out.

I expect B. home tonight
or tomorrow, but do not
know how his business has
gone - he spent Saturday &
Sunday in New Haven very
pleasantly -

There is a gravel show
at the High School today
which compels me to hurry
off - I can't write a long letter
as I had hoped. I received
mother's account of the ex-
cursion to the sea side which
was interesting I want to
know if they dig out the
sand - drifted gardens in
spring, at what happens -

Flas - new machine seems very pleasant

Has - new music seems very pleasant
I don't believe there the other - so I hope she
will be all right - I was Mrs. Shepherd's
has had a very serious operation, which
if she can recover from they hope may
shortly release her strength & health
Carpenter says pretty well but - &
people I sawed - she needs another, making
ought not to try I hope I do or otherwise
she will need with some accident -
All goes on well here with the
exception of some slight - colds - hardly worth
mentioning - Mrs. Webster's tomorrow
is the first celebration I have' heard of
here & Mrs. Webster as a matter of fact
some of the no count - places - & all that
with much love & affection & also
write for a bargain, & see speed & also

new years -

9 years merely new

little is - has only basal new new
is not - great to seek a little or his new
accounted - - he was new - particular about
the new - hole - let he new in then new
new of the new new new new
of is is not - new new new new
