

Dr. Howe of Boston asks me
to remember him to you &
mother.

Train, Monday
26 March. 94.

My dear Father,

I am sorry not to have had
the opportunity of calling again before
leaving, as I had a good many arrangements
to make for Florence. I do not expect to be
down again before the "great move".

I am much obliged to you for the trouble
you have taken about the articles in the
"Gazette" & "Witness". I ~~would~~ only have preferred
that there had been less about me personally.
A "Star" reporter called on me last evening,
but I amored him and did not give the in-
formation for the other articles; & succeeded
in staving him off.

Please give mother the enclosed regarding
Fay Mills. Dr. Mackay is very courageous to
speak out as he does about it; and what
he says shd do good.

I am very glad to think of you in
your new house; and I hope you will both
feel more settled & leisurely now.

Your affectionate son, Will.
