McGILL UNIVERSITY ARCHIVES
ACC. NO. 1463
REF. 530

Jan 19. 96

My dear Father,

I have to thank
you for your note of the
15th, relating to maps. The
particular sheet now in
hand is the S.W. sheet
of the 4 'Eastern Townships'
sheets & thus does not go
near Quebec. The outline
runs from near Sorel to
Somerset East of Westbury.

It will be some time
 still before any coloured
 proof is available, for
 the copy of Colours has not
 yet been sent to the lithographers.
 What has been discussed
 is merely the arrangement
 of the scale of formations
 for this copy, upon which
 the lithographers may go to
 work.

I have been kept very busy
 with proof ever since I came
 up & wish I could find
 some way of getting a lot of

this proof reading done,
 but it seems scarcely
 possible to find the right
 sort of man to do it,
 for in proof like that of our
 defects it is not merely
 typographical correction, but
 revision of sense & sentences,
 that is needed.

I do hope that you will not
 expose yourself to engagements
 of a public nature with
 incidents of risk of exposure,
 & feel glad that you have

4

Decided not to go to the
turning driver. I have no
intention of going, being so
fully occupied here & so
unenterprising in the bargain

Yours
Geo.
