*Amis has
been able
to find the
Silvery spurge.
Will write about
Fennell's
section in
Ottawa*

April 21 1896

My dear Foster,

I will send tomorrow

the next 2 had-issued part
of Rauff, from our whiteovers.

If this does not complete
the Siberian there must be
work to follow, but not received.

I hope you will let me know
if there should be anything further
in connection with your plans
about which I can help. The

question of your visiting Ottawa
might I think remain undecided

till nearer the time. The westings

in themselves need not be
 following, but the footing
 about, & having round at
 garden parties & that sort of
 thing. W. Florence & Self
 would of course be very
 pleased if you & Walter could
 come.

Could you one of these days
 send me a memo. of
 such circumstances of mine as
 you have told of. I have
 been trying to make up a list
 for reference.
