Ottawa.

George

Acc. 1377

June 9. 98.

My dear Father,

I love to thank  
you for the note you were  
so kind as to send me  
the other day which it was  
a great pleasure to receive.  
On Saturday I shall try to  
get down to Montreal to pay  
you a visit & I do not  
now see anything which should  
prevent me from carrying out  
this plan. The warm weather,  
I hope is not putting you to

Any inconvenience. It is  
 certainly bringing on the  
 vegetation & giving us a  
 remarkably fine & early season.  
 I hope to find that Mother has  
 been taking all due care of  
 her health — that is to  
 say that she is not doing  
 more than her strength permits,  
 for that is the trouble in her  
 case. William dined with  
 me last night & is looking  
 well & thinking of working

towards Metis next week some  
time.

The new report of prosecution  
of the House on Saturday. That  
I fancy is about the earliest date  
at which it can occur & it may  
be postponed for a few days if  
anything of a controversial  
character should turn up.

Last night, in the House of Commons,  
the question of a new building  
for the Geological Survey came  
up, as it does annually  
now. Nothing is promised for

4.

this year, but we may  
hope, I think, for some  
actual movement next  
Session.

Yours

George
