

Monday

My dear William

I admit the  
only two letters that appear  
to me to require early  
attention. We are all  
well here. Yesterday we  
had just as thoroughly a  
wet day as the Sunday  
jubilees, which like it too  
has become a strong Easterly  
gale. <sup>it</sup> is still gloomy  
& cold this morning

REF. 115

I received your letter  
from Montreal but  
nothing later. I do not  
get the winter season of the  
Inland Coast however,  
the and I shall have some  
more letters from  
Jacobs' speaks of the heat  
as unbearable.

With best love

Believe me

Yours affect
