Interesting letter in a way
showing how they travelled
long distances.

Brooklyn to
April 6/68

My dear Mrs. Davis,

You will be surprised
at receiving a letter from
me, dated on this side
of the Atlantic. We arrived
here in the "Cuba" on Tuesday
last, and have been ever
since staying with our old
friends Mr. & Mrs. Partridge.
They were so very kind as
send a letter to need us a
letter asking us to give
right to their house.

Mr. Cane has been very much
that I should accompany
him this summer, as my
health has not been very
good for the past year or two,
but it was only decided
a week before leaving home.
My sister Mrs. Scott is taking
our children to her home
in Scotland for the summer.
They are delighted at the
prospect of the visit, and
they will be very busy for
their part, as Mr. Scott is
coming to America in May.
Our programme is, if possible,
to leave for Scotland.

tomorrow, where we remain
a day or two, then to Haskoyne
and thence to Pensacola,
where Mr. Brew has business
that will detain him
probably three or four weeks
about the middle of May
we hope to be back to N. York
then we propose to go up the
Hudson to Albany then to
Wrajance, and down the
St. Lawrence to Montreal,
and if the steamer is there
plying between Quebec &
Pictou we will go down
that way, if not, by St. John's.
I can scarce realize having
such a journey in prospect

I thought I was fairly little
down as the mother of
a family might be, but
it is the means of making
my a pain, there
is no harm to report
I will be very glad to
hear from you, if you
have any arrangements will
allow for time. My letters
are all to be addressed to
the care of C. H. Pumball.

New York, and he is to for-
ward them to us. I am very
pleased to hear of the pro-
gress of you and your
family again. I suppose
you will not have left for
the winter before we reach
