

Miss Lavinia Barrie Hotel
Guelph Barrie June 8¹⁰

My dear Mr. Dawson

It was very kind of you
& Mr. Dawson to take so much
trouble in trying to help me
about Miss Cte, please accept
best thanks. I have told her
what is thought best for
her to do, but I have not
heard from her since.

We have given up the
thought of returning home
this summer, as I do
not expect to get through
present engagements before

The middle of July, but there
we have some idea of going
to Prince Edwards Island &
then working in Nova Scotia
during next winter, as
I believe, that is Dr. Dawson's
part of the world, if he can
give us any introductions
to those who can help us
in getting premises &
plans where there is a
need be for evangelizing
we shall be much obliged
to him. I dare say he is very
busy now, but it will be
quite time enough later,
to say with always friend
— as an address —

According to present intentions we
shall not be able to see you
before you leave for Metz.
In a few days we go to
Collingwood, & from there
to Billerica. We have had so
great heat happily, but I
dare say in another month
we shall be very glad to
retire from the scene of
actions, into private life -
You must feel lonely with so
many of your children
away, but I trust they
absent ones will return
to you in health & strength.
We have a friend with us
who was in the "Sardanian"
at the time of the fire, &

terrible never to be forgotten
time she describes, but do much
mercy - a few hours later, &
none would have escaped.

With our love

Believe me yrs affectly

Ellen Logan
