

Geology
GEOLOGICAL SURVEY OF CANADA.

(Museum and Office, 76 St. Gabriel Street, MONTREAL.)

July 7 1879
Fort St James B.C.

My dear Mother,

Having written at some
length to Anna about papers,
adventures & plans, having just printed
a long letter to Aunt Elvys, & it being
now late at night with the prospect
of an early start in the morning,
— I do not propose going over the
same ground again. Anna will
doubtless show you the letter. We are
quite well — the whole party — &
leave tomorrow for Fort McLeod by
the long road for Jack train.
When I may get another chance

(2)

your writing I cannot say but
I still avail myself of any
that may happen, when my business
is worth the trouble.

Love to all

Your affectionate Son

George

The clothes which I wrote about some time
ago, & anything else which is to await
me at Winnipeg must be addressed to

J. H. Rowan, Engineer C.P.Ry.

who will probably be kind enough to
take care of them

Yours
Geo. D.
