to equal one to Anna
letter I as I wrote one to Anna
only a day or two ago, I shall
postpone the letter. Yesterday

I took a half holiday & went
with Galts to Bank of England,
which we saw very thoroughly as
they had a special order. Most
interesting it was, espec. to me as
I made a hobby of banking 3 or 4 years
ago, if you remember, & read all
I could get hold of on the subject. We
saw the whole of note department, from
the printing to cancelling & storing away in
"library", the weighing office, bullion
vaults, dandled at 1,000,000 of Bank of
Eng. notes, tried weight of 1000 sovereigns
&c. &c. In fact saw everything &
came away highly satisfied but feeling
very good. Weather had been

delightful here. I go up almost
every day to Col. of Surgeons about
20 min. walk where have some
very interest. preparations. Hope
are all well at home. Over yours
R.D.
