

Williamson . 184

Barnouth
North Wales

My dear Mrs Dawson

We are thinking of you
through all these lovely balmy
days. When our friends of this
side are crossing, what must
in this weather be a kind ocean
& our friends of that side are
busy in preparation, & what
must be a kind reception, &
though we were so brave as to
say "no" to all outbreaks, these
days bring to us many a
wish we had said "yes".

I could not help sending
you just a line to tell you
how much both I & Williamson
& I wish you a happy &
very successful month

that our British Asses
may bay most lustily &
not deafen their Canadian
Audiences. And that you
may not be over fatigued
or over worried with the work
of entertainment -

The pleasure of the days you
all spent with us ^{last autumn} lives in our
minds still bright & fresh &
I for one would fain have given it
deeper root now. However it will
live until some more favourable
opportunity.

We are spending our Holiday quite
quietly in a lovely little village
of North Wales, so if my note's
later than the 27th in Arrisny,
it is because I am not sure of
Post here -

With very kindly remembrance.
