Dear Lady Dawson—

Your pretty Card  
reached me on Tuesday Co  
it could not have been better  
timed:— please accept my  
best thanks both for yourself  
& Eva for the Card & also for the  
pin wh. accompanied it—  
I never saw one like it before  
& admire it very much. I  
bore it in my shawl on  
Tuesday night & christen it

at home again — I am sure  
the college must have suc-  
ceded very unlike itself last  
winter. — I wonder if her little  
clicks give her any time now  
for painting. —

Tommie looks so rosy. Well  
he is a splendid illustration of  
your theory that Rabbits enjoy  
a drink of water — he certainly  
does. — I think he likes it better  
than milk. — I am looking  
forward to sending another  
picture of him soon on  
his own little pins — as soon  
as he can stand firmly, I

1850  
I felt a real Canadian with  
a familiar 25 cent piece to  
look at. —

It was very good of you  
indeed dear Lady Dawson  
to think of me. — I did enjoy  
my home mail — it seemed  
to bring everyone quite near  
on Tuesday. —

I hope you are well &  
that Mr William is feeling  
stronger & refreshed by  
his holiday; — I am afraid  
he will work as hard as

cells now - I perhaps undo  
the good of his rest. -

I often hear of you & Eva  
from Mother - you seem to  
have a good many Strangers  
in Montreal this winter -  
at least Mother mentions  
a good many names wh.  
are new to me. -

I should <sup>like</sup> to hear what  
Mr Harrington's little  
boy is like & what his  
name is to be - how glad  
she must be to have you

would like to have him photo-  
graphed - though I am sure  
he will object very much to  
the operation. —

We expect to go to Beauvais  
for Easter - I believe the early  
Spring there is delightful. —

With kindest regards to  
you & all your dear ones in  
oh. Love yours

Believe me

Dear Lady Dawson

Ever yours affectionately

Isabella B. Greenfield
