My dear Mother,

Enclosed is a
note from Rankine, received
yesterday, which you may
like to see if he has not
written to you since his
return. Of course you
had better not refer to
the note in writing to him
as he might not like to
feel that his letters pass

from hand to hand.

I trust that you &
 Father are keeping well
 & taking care of yourselves.
 There is no particular
 news to report here. I
 am working at present
 chiefly on a map —
 getting the geology of the
 Keweenaw region laid
 down on it, which is
 very interesting, but for
 that very reason induces
 me to put in long hours
 yours
 G. S. Gifford
