July 8th, 1896.

My dear Lady Dawson,

According to promise it gives me very great pleasure to forward you copies of our "Objects and Basis" as well as a few back numbers of the "Protestant Woman" and "Protestant Girl", so that you may see something of the methods, by which we desire to carry on the work, to which we believe the Lord has very definitely called us. I trust

that after their perusal, you may feel led to give us the pleasure of enrolling you as a member of our Union, and that you will interest your friends in the cause, which is of paramount importance in America, as well as in the Mother Country. My acquaintance with Romanism, and Ritualism does not extend beyond the British Isles, but friends, as well as the public press, keep us informed, regarding the forward movement of the Papacy across the water, while they also tell us of the splendid stand, which our fellow believers have made

against Rome's aggressive action on the question of
Education.

With kind regards,

Believe me,

Yours sincerely,

J. H. Butterfield
