

THE RIDEAU CLUB,
OTTAWA.

Aug. 31. 99

My dear Mother,

I am glad to
hear by Anna of R's
arrival and the slight
though continued improvement
in father's case. You must
indeed have had a very
trying time & I trust that
if all goes well you will
now be able to look after Jane

own health & comfort &
 build up all the strength you
 can against return to town.

We are being continued very
 sultry weather here, both day
 & night, & we are very much
 felled off at present.

Unless I should hear further
 news of a discouraging
 character, I am planning
 to go, about the middle of
 next week for a few days
 with Dr Adams, in
 Central Out, about half way

3

from here to Toronto. He has been
working there & I want to look over some
of the work of Sean. This is not quite
fixed yet, however.

I sent father's little watch back today
by post. It may need some regulation
before it keeps time properly with the new

main spring.

Yours
George
