MANAGER.

PORT ARTHUR, CANADA.

Oct. 11

My dear Walter,

I have been here some days & may be in the vicinity for a couple of days longer, having been somewhat delayed in carrying out my plans, owing to difficulty in getting a boat & a couple of men to visit some points in Thunder Bay. If tomorrow is fine, however, I can now get off, having made arrangements that are satisfactory. I have seen several places I wanted to see already & the weather has so far been excellent. Mr. McInnes, of the Survey, who has been working in this country is with me. You will no doubt like to know where I am, & I write a line just to give you the information.

Best wishes to Father & all in Montreal

Yours  
George.
