

Miss H. going to
a rest & trip to
England 1902.

J. S. Barineau

May 3^d 1902

Dearest Mother,

I had inten-

ded writing to you
from Father Point, but
we will probably be
there in the early morn-
ing, & so there will be
nothing further to
report than there is at
7^o tonight - when we
reach Quebec. I have
told all the little news
in a letter to the family
which you will no
doubt hear. & I am
trying to settle down

to the wreck of ship life
I shall do my best
to get all the good I can
of the change you all
have so long planned
for me. I think you
were really the origin-
ator of it. If it were
all as calm & quiet as
now, you certainly wd
have no need to dread
a crossing.

I earnestly hope that
you will get off soon
to Metis & if not a
week at St Agathe
might be very helpful
the food would be
suitable, & sitting out
on the gallery perhaps
better than too much
driving - Ruth has

nothing to do that we cannot easily
learn if you should think of doing the
I trust - also that better days
are coming for us - it was good to
see the pleasure he brought, & if he
does the little things, he will soon
able for the greater. If he would
go to meet, & really work for you,
better you it might be good for
him, & consulting for you. The whole
matter is so difficult in your hands
& so evidently a case where the
I will do to the utmost that I can

confidently believe you will see the
Admiral's good hopes full - I wish you
would visit - on our gallery - How
then does so, I is refreshing, you
need to lay up all the strength you
can for the better success - & let the
house pass as best it can in England
lands -

If you think of anything else
I would get for you in England also
mention it - I had not thought much
of stopping - but I will gladly get
any thing you think of - besides the custom
of doing of under conditions - I let you

say 2 or 3 combinations?
I shall let you know
as soon as possible,
how the summer is
likely to be spent, &
shall be anxious to
hear how your plans
go also - The trees along
the banks seem as
far out - as in town -
but below here it
may be different -

God be with you
dearest! A thousand
thanks for all your
constant love & thought
I will have time now
to recall many things,
that in the hurry &
stress of life, are passed
by - I have really had
a habit of forgetting

events as they passed
for all the force of each
hour seemed needed
to meet its demands.

You, on the contrary
have of late years had
too much time to think
I you always look so
bright & energetic & capable
that I fear I forget that
you need more help
& sympathy than in the
days we found you
sufficient for everything

With much love
Dear & constant re-
membrance & prayer
that the cloud is dark
& will be lifted

Lovingly

Anna
