Acc. 976

Tell me first

My dear Lady Dawson

We join, in wishing
to be a part all possible
good, for this dreary coming
seasons - You must needs
be some what lonely - without the
best thoughts of her happiness may
be pleasantly companionable -

I have just been looking over
some clever little water colour
sketches, done by your young
Grand children - I hope they are
well & strong who are there with
you - the season brings with it
sad remembrances, my pen
lingers in sympathy for you
& the sweet little Aunties
parents, as I well think

of last winter's trying cold. -

We are well & enjoying a
quiet happy winter - I fancy
our worrying anxieties for Lettice
are over. She is strong & bright,
enjoying her teaching & her life very
much. - My youngest father
my great pet; an Indian Currier
is spending the winter's season
with us - his wife & children
are continual pleasures - & are
I am glad to say in good health -

Accept our warmest love dear
Lady Danson - May each coming
season - & each year bring down
happiness & sweeter joy.

Believe me ever yours affectionately

Ann C. Williamson
