May 7th Friday

My dear Mrs. Dawson

Very many thanks
for your kind note, telling
me that I should find a
welcome when I came -

Lea Witherspoon is
going to visit her brother
in Montreal so we have
arranged to travel together,
which will be very pleasant
for us both -

We mean to leave (if all is

well, next Monday week
(May ~~17th~~ 717th) by the morning
train. So I shall hope to
be with you all by the
night of that day. Then
I shall have very much
to tell you.

I mean to write to Anna
& thank her for her kind
note; but in case my good
intentions, never get beyond
that stage, will you give
her my love & tell her that
she is quite right in thinking
I should be happy in her
company, without requiring

amusement. My idea of a
pleasant visit, is staying
with friends I love & then
I dont care what I do, I
am sure to be happy & so
I look forward with great
pleasure to being with you
all.

We have all been taken
up, with our poor friend
Mrs. Brown's deep sorrow.
I was there all morning
& feel unable to do anything
since. I fear that hope
is over, as far as his life
being spared is meant. &

they were so happy.

I shall reserve all my
news till I see you -

With warm love from
Mother & myself & kindest
greetings from Papa &
Aunt to you all

Believe me

Yours affectionately

Samie Wilton
